

How-To-Design The Golden Ratio

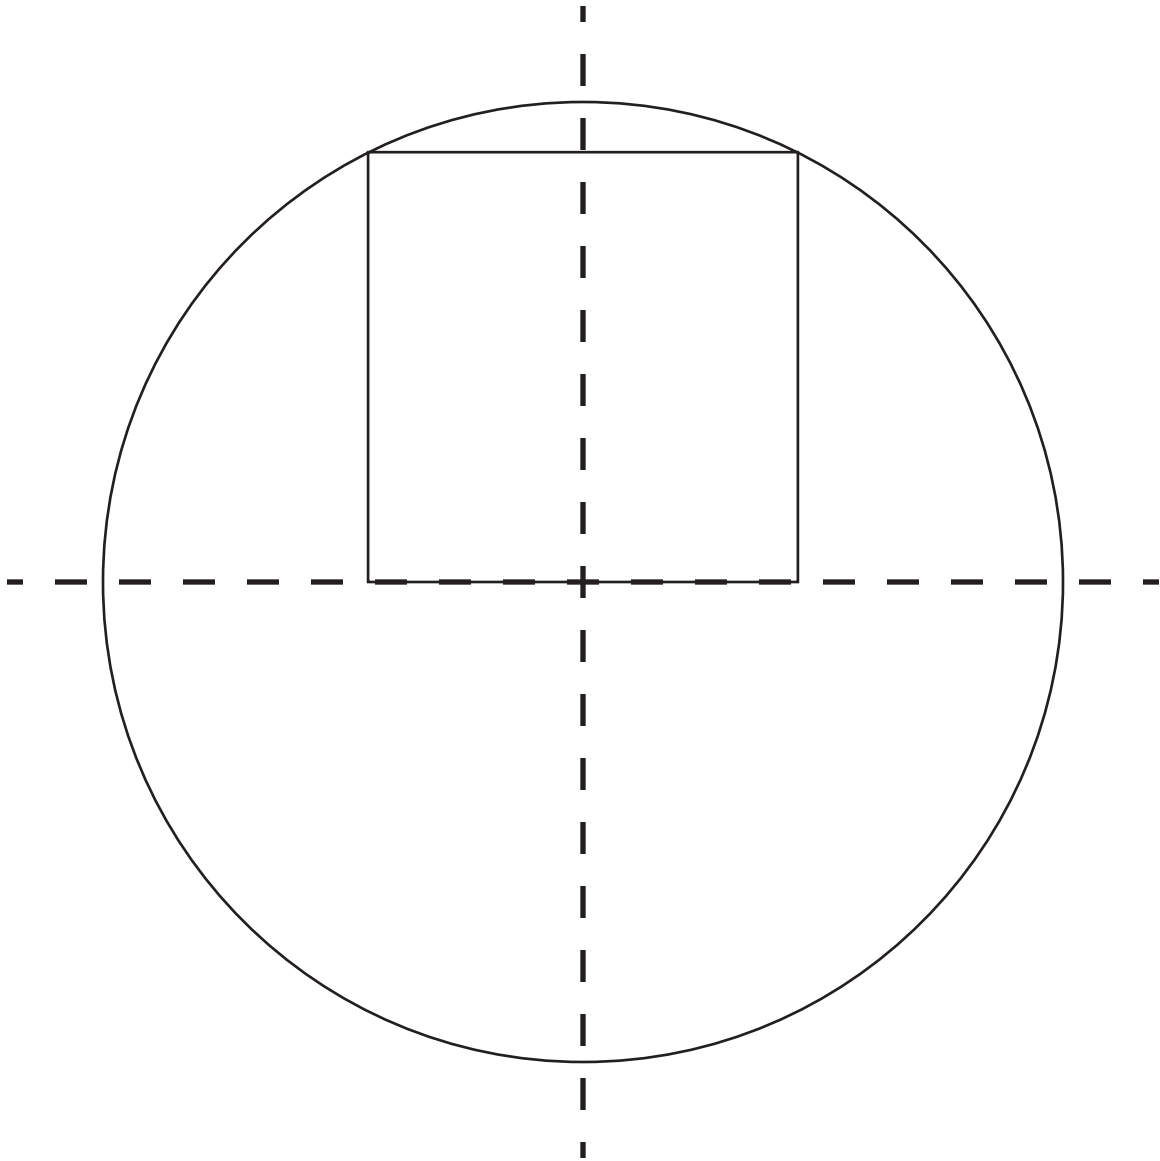

In Three
Easy Steps

How-To-Design The Golden Ratio

#1 Draw a Circle

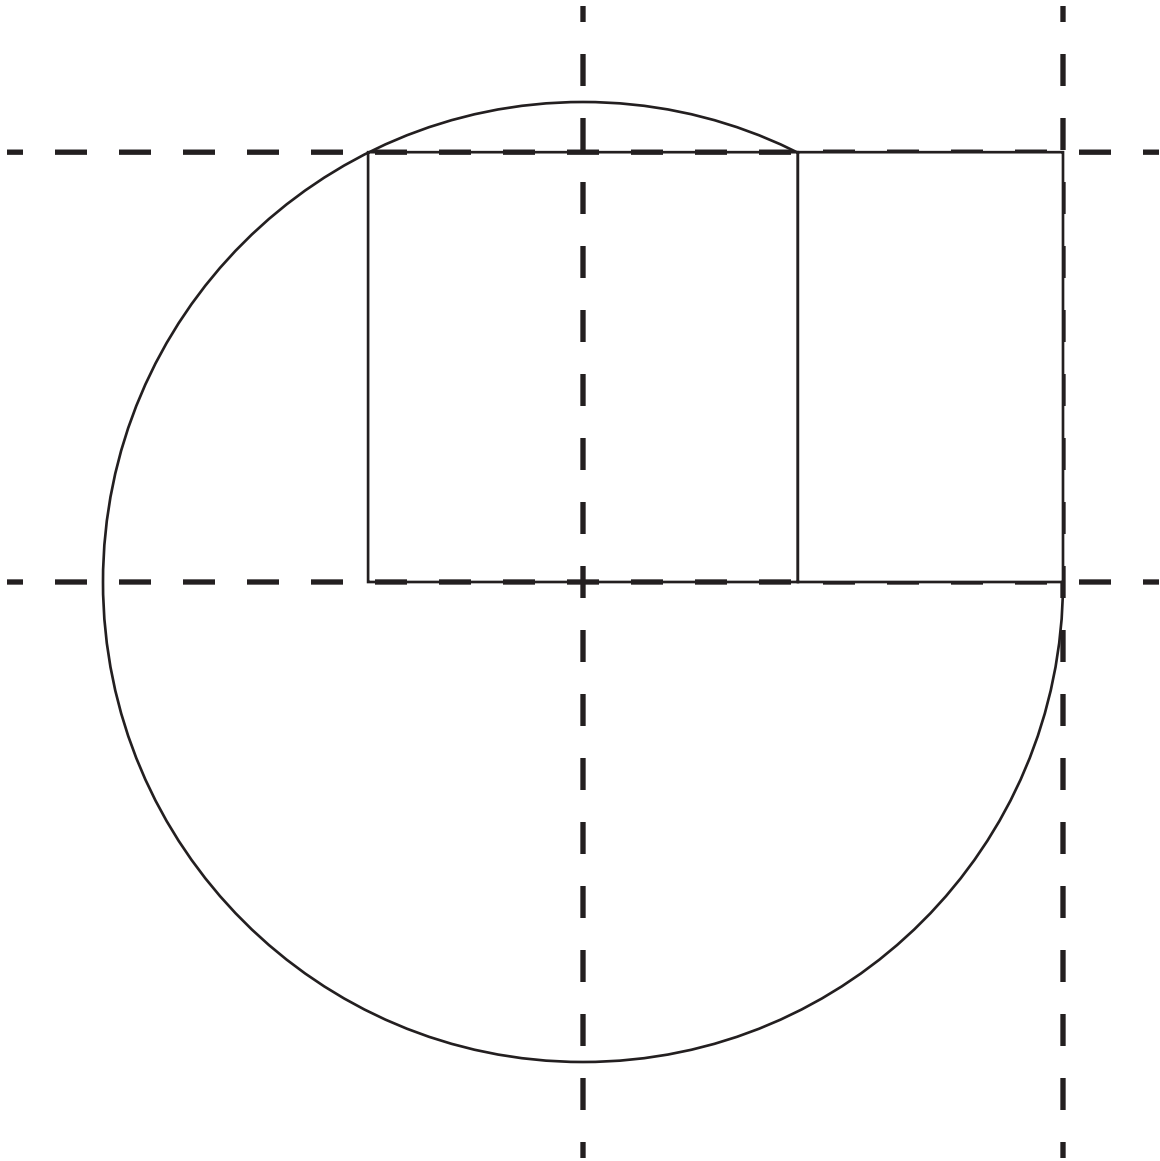

How-To-Design The Golden Ratio

#2 Draw a Square

(The bottom of the square aligns to the center of the circle,
the top of the square touches the outer edge of the circle)

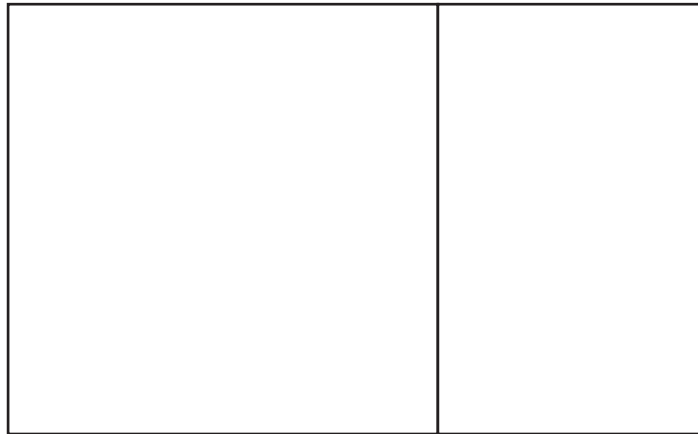

How-To-Design The Golden Ratio

#3 Draw a Rectangle

(The left side of the rectangle is flush with the square,
the right side of the rectangle is flush with the circle's edge)

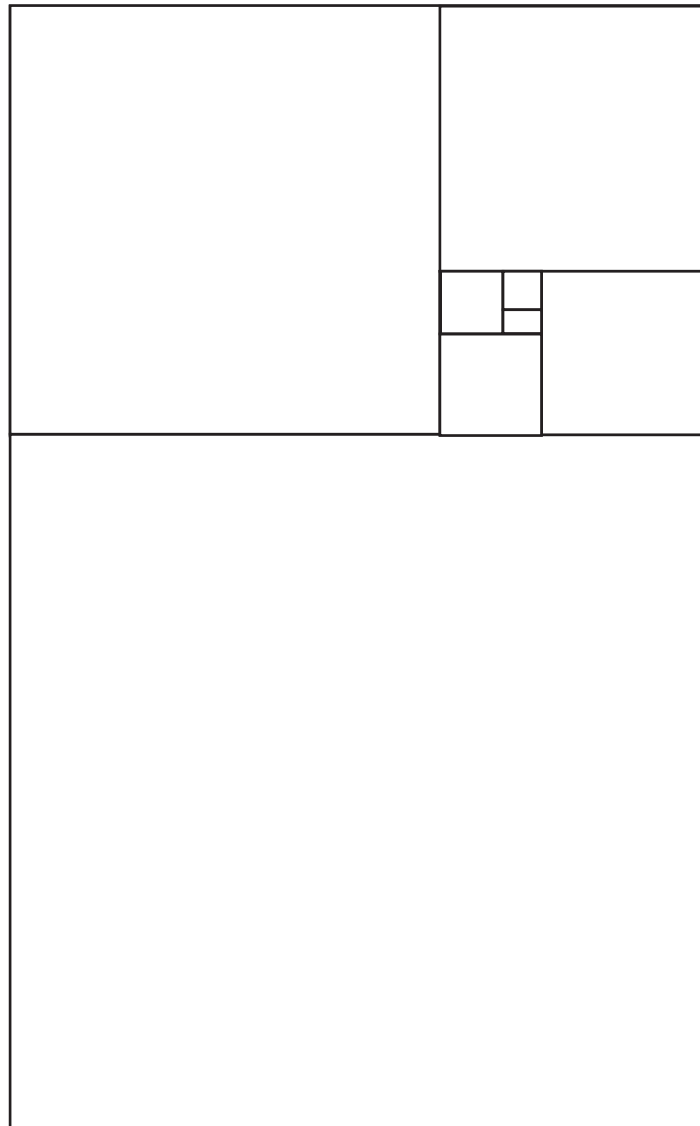

How-To-Design The Golden Ratio

That's the Golden Ratio

(1:1.619)

How-To-Design The Golden Ratio

Then just repeat.
